1171	iHost Smart Home Hub (RV1126 DDR4 4GB)	【Local Control Center】 The iHost Smart Home Hub serves as your local control center, elevating your home automation experience to be faster, more reliable, and more secure. 【Local Automation】 iHost supports settings local security modes and smart scenes. With software updates, it gradually unlocks more customizable capabilities. 【Local Data Storage & Manage】 iHost is dedicated to delivering a swift and seamless home automation experience. With local data storage and management, rest assured your information remains local and private, safeguarding your data security. 【Strong Compatibility】 Fully compatible with Zigbee standard protocol devices and Wi-Fi LAN devices. Manage up to 128 sub-devices and, with a Zigbee router, extend the Zigbee network range for whole-home control. Through the eWeLink Smart Home Add-on, you can integrate Wi-Fi devices that support LAN control from SONOFF. 【Expandable Add-Ons】 Accommodate a range of add-ons to unlock more possibilities, ensuring all your needs are met.	7,500
1126	**NEW** Zigbee Bridge Ultra	【Matter Bridge】 Break down the barriers of different IoT Platforms. Keep the Zigbee Bridge Ultra and the Matter hub in the same LAN, the Zigbee sub-devices can be seamlessly integrated with the Matter ecosystem. *Only supports Zigbee sub-devices from the SONOFF brand and eWeLink ecosystem. 【Improved Performance】 Built-in Zigbee 3.0-capable EFR32MG21 chip, equipped with 1.5GHz dual-core CPU,1GB DDR4 memory, and 8GB eMMC storage to ensure your automation runs smoothly and reliably. 【Strong Connectivity】 Zigbee Bridge Ultra supports adding up to 256 SONOFF Zigbee sub-devices, like SNZB-06P, ZBMINIL2, S26R2ZB, SNZB-03P... ZBBridge-U's communication distance can reach 200m in an open environment in the Turbo Mode. 【Wired Ethernet Connection】 Apart from Wi-Fi, Zigbee Bridge Ultra supports an Ethernet RJ45 port connection, which offers a reliable and responsive connection for your home automation experience. 【Smart Home Security】 This bridge can be used as an alarm. Set a smart scene to realize one tap to defense by NFC triggered, wireless button pressed, or app remote control. And you will hear the beep and get the notification push when the event happens.	4,000
1056	Zigbee Bridge Pro	【Supports adding up to 128 sub-devices】 Zigbee Bridge Pro supports adding sub-devices increased from 32 to 128. 【Smart Home Security】 Set up home security modes, such as home mode, away mode, and sleep mode. The bridge can be used as a local alarm. 【Local Smart Scene】 Timing and scene linkage between Zigbee devices can be executed normally even if the network is disconnected. 【Wi-Fi & Zigbee Dual-protocol Support】 Make communication between Zigbee devices and WiFi devices. 【Strong Connectivity, Limitless Possibility】 The Bridge supports to add ZigBee devices that SONOFF has released, like ZBMINI-L smart switch and S26R2ZB smart plug, making your home smarter.	1,300
1064	Zigbee CC2531 USB Dongle	The CC2531 USB dongle is a fully operational USB device which provides a PC interface to IEEE802.15.4 / ZigBee applications, comes with a CC2531ZNP-Prod firmware, the dongle can be plugged directly into your PC/Raspberry etc used as a Zigbee packet sniffer.	600

Code	Product	Features	Price
1058	Zigbee Wireless Switch | SNZB-01	Zigbee Wireless Switch is a mini and exquisite ZigBee wireless smart switch replying on SONOFF ZigBee Bridge that allows you to reach the purpose of scene linkages between ZigBee devices (SONOFF BASICZBR3 DIY smart switch and S31 Lite zb smart plug) and Wi-Fi devices. The button switch is customizable with three control options - single, double press and long press, so you can, pretty easily, program routines and actions as simple as you require. One-tap pairing. It's so much easier to pair it with multiple connected devices that you want to manage, just tap on the APP to get all devices paired. The brilliance of the button lines in its flexible movability, you can strategically place it or move it around your house to where it will be most helpful, then create a smart scene to make it work for you based on different button actions that you customized. Two-way control is even available for you to turn on/off the light from two locations. The button is battery-operated that your mobile phone will receive a low-battery notification when the remaining battery level is less than 10%, maybe it's time to change the battery.	500
1059	ZigBee Temp. & Humidity Sensor | SNZB-02	ZigBee temperature and humidity sensor that can seamlessly work with SONOFF ZigBee Bridge to track the temperature and humidity change in your home, which all real-time readings can be checked on eWeLink APP. Better still, you can set a condition in the smart scene that is the fan is turn on/off when the temperature reaches the limit value, or the dehumidifier in your room starts working once the humidity is over higher, helping prevent the growth of mildew and allergens. You can set a smart scene to trigger alerts through events like high/low temperature, high/low humidity conditions and more. Device sharing function makes your kids, family, and even the neighbors informed about the environmental conditions of your home with their mobile phones. The camera feature is available on the sensor to make you know what's go on in your home. It reserves time for you to take actions if a fire hazard arises. It is a battery-operated sensor that can be placed in any corner of your house to monitor the room temperature and humidity. Installation without any tool, simply stick the sensor on the surface of the wall or device and see it nicely to work for you.	500
1196	Zigbee LCD Smart Temp. & Humidity Sensor | SNZB-02D	【Remote Real-time monitoring】SNZB-02D sensor will monitor the temperature and humidity in real time on the APP remotely or display screen, with up to 120m/400ft coverate. 【High Accuracy & 5s Fast Refresh】Built-in Swiss-made smart hygrometer sensor that gives you more accurate readings maintaining ±0.2ºC/±0.4ºF accuracy in temperature and ±2%RH accuracy in humidity, refreshes readings every 5 seconds. 【Large LCD screen display】Use large LCD display to view the real-time values of temperature humidity clearly and dynamically, the intuitive display icons let you check the room conditions and battery status even easier than ever. 【App notifications】You'll receive instant alerts from your phone when the temperature or humidity exceeds your set comfort level. 【Data Storage & Export】Up to half-year free cloud storage, and most accurate enough to view hourly data, you can also check the highest and lowest values at any hour or day and data can be exported as files.	SOLD OUT
1128	**NEW** Zigbee Motion Sensor | SNZB-03P	【5-Sec Faster Detection】Automatically turn the lights on immediately when you pass by, and turn off the light after you leave, the shortest time can reach 5 seconds, helping you save energy. 【3-Year Battery Life】Powered by CR2477 battery extends the battery life to over 3 years, eliminating concerns about frequent battery replacements. 【Zigbee 3.0 Compatible】Supports Zigbee hubs using the Zigbee 3.0 protocol, such as SONOFF NSPanel Pro, SONOFF iHost, SONOFF ZB Bridge Pro, SONOFF ZBDongle-E, and Echo Plus 2nd... 【Local Smart Scene】Even if your WiFi network crashes, you can still activate Zigbee local scenes as long as your Zigbee devices are powered on. 【Home Security】SNZB-03P can also be used for security purposes such as detecting unauthorized entry. It can trigger a camera to record a video, activate a sound alarm through the gateway, and send app notifications to alert you.	1,000

1061	ZigBee Wireless Door/Window Sensor | SNZB-04	SONOFF SNZB-04 is a ZigBee two-in-one wireless door/window sensor that can be put on your door or window to tell you with an alert notification if your door or window is opened or closed, adding an extra layer of security to your home. The sensor provides you the possibility to create a scene linkage of ZigBee and Wi-Fi devices. Both the opening and closing status of the door/window are synced on your mobile phone, no longer to think back whether the door/down is off or not. It is really useful and can help you turn on or off the light in the action. Works with SONOFF ZigBee Bridge in harmony, you can set a scene to get your hallway lighted immediately when the door is opened. The camera function can be enabled on the sensor page in the eWeLink APP, which also allows you to view clearly who enters your home; even you can frighten the stranger and ask him to leave your home immediately with the two-way audio function. Its application can also extend to wide areas like drawers, garage doors, blinds, etc. Just stick it anywhere two things connect and it is always safe even if you don't keep watch on it. Share the sensor with your family to give them an ability to quickly control and monitor your home together. Simple installation for easier setup. Peel and directly stick it on the targeted place or object, a smart security system is ready for you.	600
1141 **NEW**	Zigbee Water Leak Sensor | SNZB-05P	【Leaking & Dripping Detection】 The elevated probe design can detect a 0.5mm liquid level and allows for use on metal surfaces without false triggers from the metal. The concave water collection design detects drips and stops leaks at the source. 【Extended Detection Support】 Used with water leak detection cable(separate purchase or purchase sensor kit), whether it's wide-range detection or narrow-area inspection, water leaks can be detected. The extension cable can be connected in series without any limit on the total length. 【Real-time Alerts & Multiple Notifications】 SNZB-05P water leak sensor will instantly send app push notifications to your phone when water leakage occurs. Zigbee local scenes can trigger the gateway's sound alarm even if the WiFi network fails. 【Zigbee 3.0 Compatible】 Integrates with Zigbee hubs utilizing the Zigbee 3.0 protocol, such as SONOFF NSPanel Pro, SONOFF iHost, SONOFF ZB Bridge/ZB Bridge-P/ZB Bridge-U, SmartThings hub v3... 【5-Year Battery Life】 Powered by CR2477 battery extends the battery life to over 5 years, eliminating concerns about frequent battery replacements.	1,100
1250 **NEW**	Zigbee Human Presence Sensor | SNZB-06P	【Presence Detection】 SNZB-06P based on 5.8GHz microwave radar, it can detect movement or stationary person. It automatically turns on the lights when you approach and keeps the lights on until you leave. 【Light Sensing】 The built-in light detector ensures that the lights are only turned on when presence is detected in the dark, helping you save energy. 【Zigbee 3.0 Compatible】 Supports Zigbee hubs using the Zigbee 3.0 protocol, like SONOFF NSPanel Pro, SONOFF iHost, SONOFF ZB Bridge Pro, SONOFF ZBDongle-E, and Echo Plus 2nd... 【Local Smart Scene】 Scene linkage between Zigbee devices can be executed normally even if there is no internet connection. 【Support Multiple Platforms】 Supporting Alexa, Google Home, Smartthings, Alice, IFTTT, and Home Assistant.	1,200

GATWAY & SENSORS

Code	Product	Features	Price
1046	RF BridgeR2 433 Smart Hub WiFi 433 MHz	【RF433MHz And Wi-Fi Protocol Supporting】 Help 433MHz RF devices to communicate with WiFi devices, extend the smart home ecosystem. 【Strong Connectivity, Limitless Possibility 】 The bridge supports adding RF 433MHz devices up to 64 that SONOFF has released, like PIR3-RF PIR Motion Sensor and DW2-RF Wireless Door/Window Sensor, making your home smarter. 【Compatible With 433MHz Remote Controller & Easy Management】 Having dozens of RF433MHz devices and troubled in control them in a mess, this RF BridgeR2 will help you get rid of it. Just migrate them to your phone. With Compatible with 433MHz remote controller for easier control. You can add up to 16 devices and up to 64 buttons. 【RF Alarm & Trigger Smart Scenes】 Can add alarms to trigger the device by setting a smart scene. For example, once the door is opened (Matched with DW2 door/window sensor), you will receive a notification with your lights on automatically.	1,200
1087	PIR3-RF motion sensor 433 MHz	【Motion Sensor & Camera Binding】 Alarm notification, by binding a camera, monitor your home on the double insurance. 【Alert Mode/Normal Mode 】 Two built-in modes which are two different trigger time mechanisms to meet your needs in different scenes. 【Smart Scenes】 Set the smart scenes based on your needs, trigger more devices/scenes. 【Low-battery Notification 】 Replace the battery in time with a notification when the battery life is 10% remaining. 【Easy Installation 】 3M adhesive or screw mounting (universal joint). Note: Batteries are not included in the package.	650
1052	DW2-RF Wireless Door/Window Sensor 433 MHz	【Alert Notification & Camera Binding】 By receiving a push notification, monitor your home more reassuringly. You can also add a camera to check the real-time status. 【Smart Scenes】 Open the door to trigger lights on/off. There are more scenes that you can customize. 【Low Power Consumption】 Adopots low energy consumption technology to extend the lifespan of batteries. 【Easy Installation】 Tool-free installation with the 3M adhesive at back, 【Note】 Batteries are not included in the package. RF433MHz Bridge is required. SONOFF DW2-RF - 433MHz RF Wireless Door/Window Sensor quantity Add to cart	450
1053	DW2-Wireless Door/Window Sensor WiFi	【No Gateway Needed】 The sensor is paired with App via Bluetooth and is controlled on App via WiFi. 【Low-Battery Reminder & History Records Check】 There is a reminder on App about the low battery, and 3-month history records are automatically saved. 【Status Sync & Camera Binding】 Check the status of the sensor through App to get the real status. You can also add a camera to view. 【Easy Installation】 With Simple peel and stick installation, it is easy to fit in door frames and window sills. 【Note】 Batteries are not included in the package.	750
